

YOUR QUALITY TIME WITH FAMILY COULD GET CUT SHORT BY **RSV**

RSV is a contagious respiratory virus that can severely affect the lungs and respiratory airways^{1, 2}.

RSV can pose a severe threat to adults aged 60 and older. It can worsen symptoms of congestive heart failure, asthma and COPD in older adults³.

Your best days are still ahead of you.
Don't let **RSV** tear your life apart.

**If you are aged 60+ protect yourself.
Consult your doctor to learn more about **RSV**.**
